What are you hoping to get out of this program?

I'd love to meet someone who has a career in journalism/media or works in the performing arts space. I'm looking to find a mentor who is open to having honest, direct dialogue with me about their career path and the lessons they've learned. I'm still navigating the "what I should be doing with my life?" question. I'm interested in talking career but also about my life outside of work. Choosing a city/town to settle down in for the long term is something that is on my mind, for example. I'm looking for a mentor who will have some life experiences to share (even if they're my age!) and hopefully someone I will grow a friendship with.
